

## CLOSURE PRINT COMPACT Automation

- Standardized fully automated system
- Compact construction
- Feeding and discharge system integrated – thereby setting up without additional installation works
- Shorter set-up times compared to alternative printing processes
- Optionally 1-3 vertical rotary pad printing units
- Capacity up to 45 000\* bottle caps/h

\* depending on the type of the bottle closure

Ready to use anywhere at any time

### Plug-and-Play fully automated system for printing on closure caps

A real Plug-and-Play fully automated system which is ready to use anywhere at any time. You only need electricity, gas and air supply, then connect our CLOSURE PRINT COMPACT and production may start. No service technician for commissioning and no special qualified personnel at the customer are necessary. A high-precision, space-saving rotary pad printing fully automated system for small batch sizes. Feeding solution, parts transport for further processing to the point of a complete system solution – everything from one source: TAMPOPRINT – "made in Germany" machine construction.

**CLOSURE PRINT COMPACT**

**3-color = 3 rotary pad printing units  
V-RTI 3000**

**Uneven surfaces do not present a problem,  
moulding injection points can be overprinted**
