A cliché for unrivaled pad printing results

Sharp, snappy, successful

Enhance your products with print images in unprecedented pad printing quality. Realize finest gradients, detailed contour sharpness and a resolution that your competition can only dream of. Our strong duo: The INTAGLIO laser cliché and the CLICHE LASER Xi work hand in hand for your outstanding printing results.

Print template: photo or vector graphic

The INTAGLIO laser cliché – a development by TAMPOPRINT. Produced for you to achieve the best printing results. With the fine engraving in the cliché, it is perfectly suited for detailed pad printing. Whether monochrome, multicolored or for a photorealistic CMYK print motif.

All this in a resolution that is in no way inferior to printing in exclusive glossy magazines. Make your product the eye-catcher on the shelf and stand out - before others do.

INTAGLIO laser cliché: raster engraving

How does this work?

The smallest cells are engraved point by point into the INTAGLIO laser cliché. Each one for itself, very specifically – differently deep and wide. This is how the pad printing ink can be precisely printed in different shades. Up to 30,000 prints with a contour sharpness that cannot be achieved with any other cliché.

How is it done?

First of all, you create the INTAGLIO laser cliché yourself, quickly and operator-independently – with the CLICHE LASER Xi. Fix the cliché on

Result: High quality pad printing

the cliché support table, load the print image onto the PC and then engrave the cliché. 100% reproducible and documented for your quality assurance. Compared to the conventional photochemical cliché production an enormous time saving.
